Our school initiatives are showing substantial progress toward our targets

After reviewing our 2016 *Investing for Success* agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our initiatives as needed to ensure every student succeeds.

Initiatives implemented include:

- Provided focused and intensive teaching for students requiring additional support to demonstrate achievement against the year level achievement standards.
- Increased teachers' repertoire of effective strategies for teaching text processing and comprehension across learning areas or subjects.
- Prepared and supported teacher aides to supply additional support in literacy and behaviour.
- Provided support for administration and teaching staff to develop, implement and monitor effective student centred behaviour practices and processes across all grades.
- Developed whole school writing plan aligned with curriculum and started to align with reading practices.
